

SEBERT WOOD PARENT/CARER WEEKLY UPDATES

Enjoy the Easter Holidays, we look forward to welcoming you
back on Monday 12th April 2021

Year 6 We cannot believe how quickly the year has flown by and that the children now only have one term left at Sebert Wood!

You have all received a Parent Mail yesterday regarding homework for next term. The SATs books provided are aimed at preparing your child both academically, alongside also helping them prepare for the increase in responsibilities expected at secondary school. Please encourage your child to complete their homework in a timely manner. We have clearly set out our expectations to the children so they know what is expected of them. As mentioned in the Parent Mail, we are more than happy to assist the children with their homework if they are struggling, if they make us aware of this themselves before the homework deadline.

Next term we will start our new topic of World War 2 which we are all really looking forward to! We have some fantastic lessons and activities planned for this which we are sure the children will thoroughly enjoy. As expected, there will also be an emphasis on transition next term, to ensure the children are as ready as they can be for their new school.

Have a lovely Easter,
Miss Woods and Mr Crew

Year 5 The Easter holidays have come round really quickly! The children have settled back really well into the routines of the classroom. We have rounded off our Spring term topics and are looking forward to starting new ones next term.

Next term we will learn about the parts of a flower and their functions. We will meet the Maya as a start to our history topic. In French we will sort healthy and unhealthy food. Our RE will have a Christianity focus. We are planning to do some weaving and would be really grateful if you could send in any unwanted wool, especially bright colours. Thank you.

Have a wonderful Easter break.
Year 5 team

Year 4 We know that everyone is looking forward to a relaxed Easter holiday, especially with the rules easing! We will not be setting any homework or spellings so you can all truly take a break. Please could everyone save all clean 2 litre fizzy bottles with lids. We will be using them in the second week back for a special Bury in Bloom project! Watch this space!

When we come back we will start our next area of maths – decimals. We will be finishing our science experiment outside on sound (fingers crossed for the weather!) and starting our new history topic of Anglo-Saxons.

Enjoy your break and chocolate eggs!
Year 4 Team

Year 3 It has been lovely to see all of the children back for the last three weeks. They have settled back into school life and been enthusiastic about their learning.

Next term we will be finding out about the Stone Age to Iron Age in History and about Rocks and Soils in Science. Our Art next term will be related to our topics. In French we will be learning lots of vocabulary related to birthdays and family.

We have given the children the home learning menu for the next half term in case you want to make a start during the Easter break.

Hopefully, we will have some nicer weather during the holiday so we can enjoy spending some time outdoors. Have a wonderful break,
Year 3 Team

Year 2 The children really impressed us with their independent writing this week – we made leaflets persuading people to come to the Year 2 Zoo. It's clear that they have worked hard to maintain their writing skills during lockdown – thank you for helping them!

In Maths we have been looking at halves, quarters and thirds. When we return after Easter we will start a new unit on measurement.

If you have any used cardboard rolls (kitchen roll) please save them for us and send them in when we return – we need them for an art project!

Have a great break,
The Year 2 Team

Year 1 It's been lovely to be back to school for the past three weeks and see that the children are beginning to settle back into a routine.

This week we have enjoyed some Easter activities and also thought about Easter foods such as hot cross buns and Easter eggs and how they relate to the Easter story.

When we return after the Easter break we have some exciting activities planned to start our new topic on dinosaurs. In maths we will be recapping on addition and subtraction.

Please try to read regularly with your child during the break. Thank you for your support.

We hope you all enjoy a lovely Easter break.

The Year 1 team.

Reception This week we have been busy making Easter cards, we painted hot cross buns and sprinkled with cinnamon to make them smell nice! We have also touched on the Christian celebration of Easter. We heard how Jesus's friends felt sad when he died but celebrated all that he had taught them and wanted to continue his good work. We talked about ways we can be kind and things that we are good at that we could teach someone else.

After Easter our new topic is based on a question, who might live in a castle? We hope to do lots of problem solving challenges to develop our thinking skills. For instance how could you rescue someone from a tower?

We hope you all have a relaxing Easter break and that the sun shines.

Reception Team

Nursery We have had a wonderful week in Nursery enjoying Easter egg hunts, egg and spoon races, parachute fun and many Easter activities!

After Easter, we look forward to welcoming some new friends into Nursery. We will focus our activities around 'Pets'. We look forward to having a role play pet shop where we can buy pet dogs, cats, rabbits, mice, fish and even snakes! We will learn how to care for and look after our pets.

It would be wonderful to see photos of your pet animals or photos of your sunflowers growing! We would love to create some displays in Nursery.

Please continue to add photos onto tapestry, the children love sharing these with their friends in Nursery.

We wish you all a fantastic Easter break!

The Nursery Team
