

Sebert Wood Primary School

Parent/Carer Update

Monday 27th January 2025

Chinese Students

Last week the school hosted pupils from Shenzhen Middle School in Meixi, China. It was an exciting experience for both our own pupils and the visitors.

Our year 6 pupils learnt some mandarin and found out the similarities and differences between schools in the UK and schools in China. The idea of classes having 50 pupils in them came as a shock to many of our pupils!

School Award

We are pleased to announce that we have been awarded the Eco Advocates award by Anglian Water.

In conjunction with their learning about water, Year 4 pupils have been monitoring the school's water usage. They undertook a water audit across the whole school and identified water wastage happening at weekends. They also made posters encouraging pupils to make sure taps are turned off properly.

In recognition of the pupils' work Anglian Water will be providing us with a water butt, which will make a great addition to our eco-garden.

Outside of school

Congratulations this week to Emily in Y6, who has won a photography competition! She entered her photo into the Rotary Young Photographer Competition which was run late last year. The theme of the competition was to convey Wonderful Water in line with Bury Rotary's fundraising for clean water for all. Her first place award is well deserved. Look out for her photograph when it's printed in the Bury Flyer!
